New programs

- Rider 76
- Proposed budgets

Family Planning Program

HTW & FP Service Categories

Core Family Planning Services

- Contraceptive services (pregnancy prevention and birth spacing)
 - IUDs, implants, oral contraceptive pills, 3-month injections (medroxyprogesterone), sterilizations, etc.
- Pregnancy testing and counseling
- Health screenings
 - Pap tests
 - Screening for hypertension, diabetes, and elevated cholesterol
- Preconception health (e.g., screening for obesity, smoking, and mental health)
- Sexually transmitted infection (STI) services
 - Chlamydia & gonorrhea screening & treatment
 - HIV screening

HTW & FP Service Categories

Related Preventive Health Services

- Beneficial to reproductive health
- Closely linked to family planning services
- Appropriate in context of family planning visit but do not contribute directly to achieving/preventing pregnancy
- Examples include:
 - Breast cancer screening
 - Cervical cancer screening and treatment
 - Problem-focused gynecological services
 - Cancer screening of other reproductive organs such as vagina or uterine lining
 - Repair of abnormalities of reproductive system

HTW Service Categories

Immunizations

- Vaccines and immunizations for women to protect individuals and the public from vaccine preventable illnesses.

Other Preventive Services

- Includes preventive health services for women not included in *related preventive health services* that positively affect maternal health and future pregnancies.
- Important in primary care context

FP Service Categories

Immunizations

- Vaccines and immunizations for women and men to protect individuals and the public from vaccine preventable illnesses.

Prenatal Services

- The proposed prenatal services are based on clinical guidelines of the American Congress of Obstetricians and Gynecologists (ACOG) and include services that are currently reimbursed by Title V and services that have been reimbursed by the Expanded Primary Health Care Program.
